What is Astrology

Astrology is the study of the effects of planetary forces upon man. It is not fortune telling. It is one of the best methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character is destiny. If man can change his character, then man will have changed his destiny. The main uses of astrology are diagnosis of health and sickness, character analysis, vocational guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can rule his stars by exerting his will. If a man decides to flow with the tide of life, then the tendencies indicated in the birth chart will at some time have their effect. The one thing a birth chart does not show is the WILL of the individual and how he may exert it. The matter of exercising free will is left entirely up to the individual. The wise man rules his stars, the fool is ruled by them. Astrology forewarns and being forewarned, a man is thus forearmed to better cope with the struggles of life.

Tension

13-7-2024

You may have to make an effort to respond to the needs of others during this period, even if you don't feel like it. You will win their respect. This transit can bring out tensions between your personal needs and your public and professional obligations. As the Sun "illuminates" your emotions, you may feel like you're in a tug-o-war between "me and them". The purpose of this conflict is to help you learn to balance emotions with public or professional duties. If you have been pursuing your public life by covering up your emotions, this transit can be quite noticeable and perhaps frustrating -- your emotional nature will come out one way or another. On the positive side, this can also be a time of high energy and you can achieve a great deal. If your feelings have been suppressed,

then tensions can occur in your personal life, too. The lesson to be learned here is how to operate in your daily life by acknowledging and accepting your emotions, and functioning in tune with your "gut" feelings.

Your thoughts tend to be influenced by deep emotional stirrings now. Your powers of persuasion are very strong and you should be able to convince just about anybody of anything at the present time. This is a good time to carry out research. This can be a two-sided transit. It indicates a time of very intense mental activity in which your thinking and communications with others will have an extremely penetrating quality, and can be obsessed with getting to the bottom of every question, feeling unsatisfied with superficial

answers. It is a good time for research and investigative activities. Any aspect of these two planets gives you the ability to speak with persuasive force and vigor. In fact, others will believe you are right, even if you don't have the answer. It is critical that you take the feelings of others into consideration when speaking, or extreme opposition could result--even if they believe you. The other side of the transit is that others may do the same thing to you. It can indicate an extremely unpleasant mental power struggle in which you may be either the victim or the perpetrator. Or, you could become preoccupied and obsessed by a single idea or point of view that can be hard to let go of, until it seems to control your life for that day. This could be very intense while it lasts, but Mercury transits do not last very long.

Sail straight and true through the currents of self-doubt and ignore the sometimes jealous remarks of others who would see you give up.
